

Esteem Time Registration Guidelines

Purpose

Time registration helps us gain insight into:

- Time spent per client
- Capacity planning
- Project profitability
- Investments in innovation and growth
- Development of people, services, and tooling

Please register your hours daily whenever possible and no later than the end of each working week.

General Guidelines

1. Always book your hours to the project that best matches the work performed.
 2. Add a short description of the activities completed.
 3. Client meetings should be booked under the relevant client project.
 4. If in doubt, register the hours and align with Carmen.
 5. Register all hours worked, even if they are not billable. This helps us understand actual time investment across Esteem.
-

Project Overview

Billable to Esteem

Hours that may be invoiced to Esteem.
